SUNDERLAND (SHG) FINANCE PLC

DIRECTORS' REPORT

Year ended 31 December 2018

The directors submit their Directors' report, Strategic report and audited financial statements for the year ended 31 December 2018.

RESULTS AND DIVIDEND

Sunderland (SHG) Finance Plc (the **company**) made neither a profit nor a loss for the year. The directors do not propose the payment of a dividend.

SHARE CAPITAL AND COMPANY STRUCTURE

Sunderland (SHG) Finance Plc is a public limited company incorporated and domiciled in England and Wales. The entire issued share capital of the company is owned by Prudential Trustee Company Limited.

DIRECTORS

The directors of the company who served throughout the year and up to the date of signing the financial statements were:

C. Burke
F. Edge
I. Peacock (resigned 4th July 2018)
P. Williamson

CORPORATE GOVERNANCE

As an issuer of asset-backed securities (the **secured bonds**), the operations of the company are conducted by an administrator, T.H.F.C. (Services) Limited, in accordance with the requirements of a corporate services agreement and the trust deed. This arrangement is monitored by the board of directors who are also directors of the administrator. There is no requirement for a separate audit committee.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with International Financial Reporting Standards (**IFRSs**) as adopted by the European Union as applied in accordance with the provisions of the Companies Act 2006. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;

DIRECTORS' REPORT (continued)

Year ended 31 December 2018

- state whether applicable International Financial Reporting Standards (IFRSs) as adopted by the European Union have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are responsible for the maintenance and integrity of any information published on the administrator's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

DISCLOSURE OF INFORMATION TO AUDITOR

In the case of each director in office at the date the Directors' report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditor is unaware; and
- he/she has taken all the steps that he/she ought to have taken as a director in order to make himself/herself aware of any relevant audit information and to establish that the company's auditor is aware of that information.

This report was approved by the board and signed on its behalf by

Colin Burke

STRATEGIC REPORT

Year ended 31 December 2018

PRINCIPAL ACTIVITIES

The principal activity of the company is to provide finance for housing associations to registered providers of social housing, registered social landlords and registered housing associations, in England, Wales, Scotland and Northern Ireland (**HAs**) through the issue of bonds ultimately secured on the assets of the company (the **secured bonds**).

The company issued its first secured bonds to provide such finance on 26 June 2001. The company on-lent the proceeds to Gentoo Group Limited (**GGL**) via T.H.F.C. (Capital) Plc (**THFCC**) (the **borrower**) which is an aggregating intermediary for loans to GGL.

All the company's operating costs, net of interest earned, are recoverable from the borrower.

Prudential Trustee Company Limited acts as the trustee on behalf of all secured bond holders, under the terms of a trust deed, and has the benefit of a fixed charge over certain assets of the borrowers and a floating charge over all the assets of the issuer.

The bond trustee may exercise certain powers in predetermined circumstances in the event of default by the borrowers.

The company expects to continue its principal activity for the life of the secured bonds, which have a final repayment date of 2042.

The company does not use derivative financial instruments in its risk management procedures.

REVIEW OF BUSINESS AND FUTURE DEVELOPMENTS

The company has fulfilled its obligations under the bonds. Given the straight forward nature of the business, the company's directors are of the opinion that analysis using key performance indicators is not necessary for an understanding of the development, performance or position of the business. The directors consider the position of the company at the year end to be satisfactory.

During the year the directors of the issuer's holding company, Sunderland (SHG) Finance Holdings Limited simplified the group structure by transferring its investment in the issuer to the Prudential Trustee Company Limited and then dissolving the holding company.

FINANCIAL RISK MANAGEMENT

The key financial risks of the company and how they are minimised are explained in note 3.

This report was approved by the board and signed on its behalf by

Colin Burke

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF SUNDERLAND (SHG) FINANCE PLC

Year ended 31 December 2018

Opinion

We have audited the financial statements of Sunderland (SHG) Finance Plc (the **company**) for the year ended 31 December 2018 which comprise the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Cash Flows and the notes to the financial statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

In our opinion, the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2018 and of its result for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The other information comprises the information included in the Annual Report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF SUNDERLAND (SHG) FINANCE PLC (continued)

Year ended 31 December 2018

We have nothing to report in this regard.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic report and the Directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic report and the Directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic report or the Directors' report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on pages 1 to 2, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

SUNDERLAND (SHG) FINANCE PLC

**INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF SUNDERLAND (SHG) FINANCE
PLC (continued)
Year ended 31 December 2018**

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2018

1 GENERAL INFORMATION

Sunderland (SHG) Finance Plc (the **company**) provides finance for registered providers of social housing, registered social landlords and registered housing associations, in England, Wales, Scotland and Northern Ireland (HAs). The company is a public limited company limited by shares which has issued secured bonds listed on the Professional Securities Market of the London Stock Exchange. It is incorporated and domiciled in England and Wales. The address of the registered office is 3rd Floor, 17 St Swithin's Lane, London, EC4N 8AL.

The company on-lent the proceeds of the issue of the secured bonds to T.H.F.C. (Capital) Plc (**THFCC**) (**the borrower**). THFCC on-lent the proceeds to Gentoo Group Limited (**GGL**) under a loan agreement.

2 ACCOUNTING POLICIES

Basis of preparation

The financial statements have been prepared on a going concern basis in accordance with International Financial Reporting Standards (**IFRSs**) as adopted by the European Union, applied in accordance with the provisions of the Companies Act 2006.

The financial statements have been prepared under the historical cost convention.

Going concern

All of the company's operating costs are recoverable from GGL throughout the life of the bonds and on this basis the directors are of the opinion that the company has adequate resources to continue in operational existence for the foreseeable future. For this reason, the directors continue to adopt the going concern basis in preparing the financial statements.

Changes in accounting policies and disclosures

(a) New and amended Standards and Interpretations adopted by the company

In the current year, the following new and amended Standards and Interpretations have been adopted by the company:

- IFRS 9 Financial Instruments (Effective 1 January 2018): This deals with the classification, measurement and impairment of financial assets and financial liabilities.
- IFRS 15 Revenue from Contracts with Customers (Effective 1 January 2018): The standard represents a single revenue recognition standard to be applied across various industries. The standard replaces IAS 18 Revenue.

The adoption of these amendments has not had a material impact on the reported results or financial position of the company except in relation to IFRS9 which has given rise to additional disclosure requirements in accounting policies.

(b) New and amended Standards and Interpretations mandatory for the first time for the financial year beginning 1 January 2018 but not currently relevant to the company

Other standards effective or amended in the year have not had a material impact on the reported results or financial position of the company.

NOTES TO THE FINANCIAL STATEMENTS (continued)
Year ended 31 December 2018

(c) New and amended Standards and Interpretations issued but not effective for the financial year beginning 1 January 2018.

- Amendments to IFRS 9 Prepayment Features with Negative Compensation (Effective 1 January 2019, not yet endorsed by the EU): These amendments are designed to enable, if certain conditions are met, companies to measure at amortised cost certain prepayable financial assets with so-called negative compensation and also clarifies the accounting for non-substantial modifications of financial liabilities should follow the same process as financial assets in similar circumstances.

The directors are currently assessing the impact and timing of adoption of these Standards on the company's results and financial position.

The effect of all other new and amended Standards and Interpretations which are in issue but not yet mandatorily effective is not expected to be material.

Critical Accounting Judgements

The preparation of financial statements in accordance with IFRSs requires the use of certain critical accounting adjustments; these require management's judgement in applying the accounting policies. The main critical accounting judgement in preparing these financial statements is the evaluation as to whether the loan to THFCC is impaired. The directors have concluded that no impairment provision is required in relation to the loan to THFCC in accordance with IFRS9. This is for a number of reasons which includes, but is not limited to, the credit quality of THFCC's borrower and the company's zero loss experience to date. As the company is not subject to any net credit risk any incurred loss impairment would be matched by a similar adjustment to the gross liability.

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented unless otherwise stated.

Interest

Interest receivable on the loan to the borrower and interest payable on the secured bonds is accounted for using the effective interest rate method. Any premiums/discounts on issue are added to/deducted from the original loan amount or secured bonds nominal value and charged/credited to the statement of comprehensive income over the expected life of the loan or bond using the effective interest rate method so that the interest receivable and payable, as adjusted for the amortisation of premiums/discounts, gives a constant yield to maturity.

Costs recoverable

All operating costs are recovered from Gentoo in the year in which they are incurred. Issue costs were also recovered from Gentoo.

Loan to borrower ('loan')

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the company becomes a party to the contractual provisions of the instrument.

NOTES TO THE FINANCIAL STATEMENTS (continued)
Year ended 31 December 2018

Financial assets and financial liabilities are initially measured at fair value. Net transaction costs that are directly attributable to the acquisition or issue of the financial assets and financial liabilities (other than financial assets and financial liabilities at FVPL) are respectively added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. The company recovers all transaction costs from its borrower, so they do not form part of the fair value at recognition.

Financial assets

Classification and measurement

The company applies IFRS 9 and classifies its financial assets in the following measurement categories:

- fair value through profit or loss (FVPL); or
- fair value through other comprehensive income (FVOCI); or
- amortised cost.

The classification requirements for debt instruments are described below. Classification and subsequent measurement of debt instruments depend on:

- 1) the company's business model for managing the asset; and
- 2) the cash flow characteristics of the asset ("SPPI test").

1) *Business model*: The business model reflects how the company manages the assets in order to generate cash flows. That is, whether the company's objective is:

- solely to collect the contractual cash flows from the assets ("Hold to collect"); or
- to collect both the contractual cash flows and cash flows arising from sale of the assets ("Hold to collect and sell"); or
- neither of these ("Other").

Factors considered by the company in determining the business model for a group of assets include past experience of how the cash flows for these assets were collected, how the assets' performance is evaluated and reported to key management personnel, the likely future experience of cash flows, and how credit risks are assessed and managed.

2) *SPPI test*: Where the business model is "Hold to collect" or "Hold to collect and sell", the company assesses whether the financial instruments' contractual cash flows represent solely payment of principal and interest on that principal ("SPPI"). In making this assessment, the company considers whether those cash flows are consistent with a basic lending arrangement (i.e. interest includes only consideration for the time value of money, credit risk and other basic lending risks that are consistent with a basic lending arrangement) or reflect exposure to risk or volatility that are inconsistent with a basic lending arrangement.

Based on these factors, the company classifies its debt instruments into one of the measurement categories detailed above. All of the company's financial assets have been assessed as falling within a "Hold to collect" business model whose contractual cash flows are SPPI and therefore measured at amortised cost.

Amortised cost is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest rate method, adjusted for any loss allowance.

The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of an asset.

NOTES TO THE FINANCIAL STATEMENTS (continued)
Year ended 31 December 2018

Interest income from these financial assets is calculated by applying the effective interest rate to the gross carrying amount of the financial asset and is included in the statement of comprehensive income within 'operating income'.

Reclassification

The company reclassifies debt investments when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change.

The company holds the following debt instrument under financial assets:

Loan receivable

Loans receivable represents monies lent to Housing Associations under loan agreements and held at amortised cost.

Cash and bank balances

Cash and cash equivalents comprise cash balances that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value.

Short term deposits

Short-term deposits consist of term deposits whose original maturity dates are greater than three months or less from the investment date, but not more than twelve months.

Trade and other receivables

Other receivables are recognised at transaction price and are subsequently measured at amortised cost.

Impairment

The company assesses on a forward-looking basis the expected credit losses (ECL) associated with any debt instruments carried at amortised cost. The company may recognise a loss allowance for such losses at each reporting date.

The IFRS 9 impairment model has three stages – Stage 1, Stage 2 and Stage 3 (default).

The company may recognise a 12-month expected credit loss allowance on initial recognition (stage 1) and a lifetime expected loss allowance when there has been a significant increase in credit risk (stage 2) that would no longer render the instrument low risk. Stage 3 requires objective evidence that an asset is credit impaired.

The measurement of ECL reflects:

- (a) Probability-weighted amounts of loss given default using an agreed methodology;
- (b) the time value of money; and
- (c) reasonable and supportable information on the social housing sector that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of the future operating environment.

NOTES TO THE FINANCIAL STATEMENTS (continued)
Year ended 31 December 2018

The company operates within a default free sector and its sole borrower – T.H.F.C. (Capital) Plc and its underlying borrower (GGL) – have complied with their performance and payment obligations in accordance with their respective loan agreements since inception. For these reasons the company does not use a complex expected loan loss model and bases its assessment of 12-month expected credit loss solely on its loss experience in the period since the loans were made. Loss experience to date is zero so management's assessment of the 12-month expected credit loss is also zero.

Collateral arrangements are described in note 3 on page 17.

Significant Increase in Credit Risk (movement from stage 1 to stage 2)

The company has identified a number of early warning indicators (EWIs) against which assets are monitored. If any of the events occur, internal consideration is given as to whether an individual loan should move to stage 2 classification.

EWIs include but are not restricted to, the following:

- a) unexpected adverse changes in the executive and management structure of the borrower or underlying borrower;
- b) annual financial statements of borrower or underlying borrower carry an auditor's qualification;
- c) government action which negatively impacts on the borrower's business;
- d) significant adverse changes in the business or financial condition of the borrower or underlying borrower;
- e) failure of semi-annual performance tests by the underlying borrower;
- f) regulatory down grade to a non-compliant financial grading of the underlying borrower;
- g) payment of interest and capital after due date but within grace period;
- h) early warning signs of cash flow/ liquidity problems;
- i) decline in credit grading of underlying borrower to a level below an equivalent investment grade.
- j) borrower records an impairment loss

Definition of default (movement to stage 3)

The company has identified a series of quantitative and qualitative criteria that will be used to determine if an account meets the definition of default, and therefore should move to stage 3:

- a) Payment default;
- b) Cross default;
- c) Breach of covenant(s).

Derecognition

Financial assets, or a portion thereof, are derecognised when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either:

- The company transfers substantially all the risks and rewards of ownership; or
- The company neither transfers nor retains substantially all the risks and rewards of ownership and the company has not retained control.

NOTES TO THE FINANCIAL STATEMENTS (continued)
Year ended 31 December 2018

Financial liabilities

Classification and measurement

Financial liabilities are recognised where the substance of the contractual arrangement results in the company having an obligation to either deliver cash or another financial asset to the holder.

Financial liabilities include borrowings and trade and other payables.

Initial recognition and subsequent measurement

Financial liabilities (other than derivatives) are initially recognised at the fair value of consideration less directly attributable net transaction costs and subsequently at amortised cost using the effective interest rate method. Amortised cost is calculated by taking into account any discount or premium on the issue and costs that are an integral part of the effective interest rate method.

Derecognition

Financial liabilities are derecognised when they are extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).

Secured bonds

Secured bonds are stated at amortised cost. Any premium or discount on issue is added to/deducted from the nominal value of the secured bonds and charged or credited to the statement of comprehensive income over the expected life of the secured bond so that the interest charge as adjusted for the amortisation of premium/discount gives a constant yield to maturity.

Netting

The company does not net financial assets and liabilities and has no other enforceable offsets.

Fair Values

The fair value of a financial instrument is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

IFRS 13 *Fair value measurement* requires an entity to classify for disclosure purposes its financial instruments held at amortised cost according to a hierarchy that reflects the significance of observable market inputs. The three levels of the fair value hierarchy are defined below.

Quoted market prices – Level 1

Financial instruments are classified as Level 1 if their value is observable in an active market. Fair values for such instruments are reported by reference to unadjusted quoted prices for identical assets or liabilities where the quoted price is readily available, and the price represents actual and regularly occurring market transactions on an arm's length basis.

Valuation technique using observable inputs – Level 2

Financial instruments classified as Level 2 are fair valued using models whose inputs (for example, interest rates and credit spreads) are observable in an active market.

NOTES TO THE FINANCIAL STATEMENTS (continued)
Year ended 31 December 2018

Valuation technique using significant unobservable inputs – Level 3

Financial instruments are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data. The company has no instruments classified in Level 3 (2017: none).

The company's secured bonds are tradable but the markets are not considered to be active. Accordingly market prices of the reference gilt have been adjusted for an appropriate credit spread to arrive at a fair value (Level 2 valuation). The fair value of the associated fixed rate loans is similarly adjusted for appropriate credit spreads (Level 2 valuation).

Prepayment

It is expected that each loan will run to maturity, however the loan agreement between THFCC and GGL provides that GGL may at any time purchase the secured bonds. Bonds purchased must be surrendered to the company and an amount of the outstanding balance of the loan between THFCC and GGL equal to the outstanding balance of the bonds surrendered shall be deemed to be prepaid. Following any such purchase a corresponding amount of the outstanding loan between the company and THFCC equal to the amount of the bonds surrendered shall also be deemed to be prepaid. The prepaid amounts of the loan and the equivalent bond nominal amount is removed from the statement of financial position on delivery of the Deed of Surrender.

Segmental Analysis

All operating income and expenditure is derived from activities undertaken in the United Kingdom. The company's only activity is to provide finance to THFCC. Therefore 100% of interest income is receivable from THFCC.

3 FINANCIAL RISK MANAGEMENT

The proceeds from the issue of the 6.38% secured bonds 2042 were used to make a loan to the borrower.

Credit risk

The company is subject to gross credit risk on its loan to THFCC but no net risk.

The ability of the company to make payments of interest, principal and any other sums due in respect of the bonds will depend on the company receiving like amounts from THFCC under its loan agreement and by THFCC receiving the like amounts from GGL under its loan agreement with GGL.

To the extent that the company does not receive sufficient amounts in respect of the loan agreement (whether in the ordinary course of business, following the enforcement of its security obtained in respect of the loan agreement or otherwise) then the company will not have sufficient monies to pay interest, principal or other sums due in respect of the bonds. Non-payment by the company may not necessarily constitute an event of default under the bonds.

The carrying value of the loan represents the maximum exposure to gross credit risk. The loan is not past due or impaired at 31 December 2018 (2017: None).

Gross credit risk on the loan is mitigated by the collateral and security arrangements described below:

The secured bonds are rated "A3/AA-" by Moody's Investor Service and Standard & Poor's at 31 December 2018 (2017: "A1/AA-").

NOTES TO THE FINANCIAL STATEMENTS (continued)
Year ended 31 December 2018

On 21 September 2018 Moody's lowered their rating on the bonds following the enactment of the Housing Administration regime on 5 July 2018 under the Housing and Planning Act 2016. This has had no impact on the company.

Collateral and security arrangements

The company's gross credit risk is mitigated by the following factors. The loan is secured by way of a fixed charge over certain assets of GGL. GGL is subject to external regulation by the Regulator of Social Housing. The GGL has provided a first legal mortgage over property owned or leased to ensure that the debt is adequately serviced from the relevant assets through to maturity in the event of a default.

As the on-going cash flow from the underlying security is the key component to securing the transaction, measurement of the book value and fair value of the secured properties is not required by the transaction documentation. For this reason, it would not be practical or cost effective to obtain this information on an annual basis.

Prudential Trustee Company Limited acts as the trustee on behalf of all secured bondholders (the bond trustee), under the terms of a Trust Deed, and has the benefit of a fixed charge over certain assets of the borrower and a floating charge over all the assets of the company and THFCC.

The bond trustee has the power to take control of the charged properties in certain pre-determined circumstances to protect cash flows to be used to satisfy obligations under the bonds.

Collateral, unless subject to enforcement, is not recorded on the company's statement of financial position.

Liquidity risk

To mitigate liquidity risk the borrower collects interest from GGL four business days prior to payment to bondholders. Additionally GGL maintains a debt service reserve fund with the bond trustee which is a minimum of one year's worth of interest payments that can be drawn upon in the event of a late payment.

The loan repayments by GGL to the borrower commence four business days before 31 March 2022. The repayments are calculated on an annuity basis with the final repayment being made four business days before 31 March 2042. Interest is receivable half yearly in arrears at an amount equal to the interest falling due for payment by the company on the secured bonds.

Interest on the secured bonds is payable half yearly in arrears. As from 31 March 2022, each half yearly payment will be increased to include a capital element in order to redeem part of the principal amount of the secured bonds.

The maturity analysis of financial liabilities is given in note 11.

As with credit risk to the extent that the company does not receive sufficient amounts in respect of the loan agreement (whether in the ordinary course of business, following the enforcement of its security obtained in respect of the loan agreement or otherwise) then the company will not have sufficient monies to pay interest, principal or other sums due in respect of the bonds. Non-payment by the company may not necessarily constitute an event of default under the bonds.

NOTES TO THE FINANCIAL STATEMENTS (continued)
Year ended 31 December 2018

Interest rate risk

The interest charged on the loan is fixed and is equal to the interest payable on the related secured bonds and hence there is no cash flow risk between the receipt and payment of interest. Accordingly, the directors consider that the company is not subject to any risk on the fluctuation of interest rates.

Fair value risk and market price risk

There is a gross fair value risk on the loan and secured bonds but there is no net risk. Market price risk is not expected to impact on the company because (i) the loan and secured bonds are held at amortised cost in the financial statements and (ii) the company expects to hold them until maturity.

Currency risk

All financial assets and liabilities are denominated in sterling and hence there is no currency risk.

4 INTEREST RECEIVABLE

	2018 £	2017 £
On loan to borrower	13,576,768	13,576,768
Amortisation of premium	<u>(2,395)</u>	<u>(2,249)</u>

11 FINANCIAL LIABILITIES – SECURED BONDS

	2018 £	2017 £
6.38% secured bonds 2042		
Amortised cost	212,802,000	212,802,000
Unamortised premium	57,400	59,795
Amortised cost	212,859,400	212,861,795
Premium due within one year	(2,546)	(2,395)
Non-current amortised cost	212,856,854	212,859,400

Details of security are set out in note 3.

The 6.38% secured bonds are listed and are repayable between 31 March 2022 and 31 March 2042 and were issued as follows:

	Nominal Value £	Premium £
26 June 2001	239,500,000	94,363
Prepayment 18 June 2010	(26,698,000)	(10,519)
	212,802,000	83,844

The net premium and cumulative amortisation at the beginning of the year was £59,795 and £24,049 respectively (2017: £62,044 and £21,800). Amortisation charged during the year was £2,395 (2017: £2,249).

The proceeds of the above issue of £239,594,363 were used to make loans to GGL via T.H.F.C. (Capital) Plc. All issue costs relating to the issue of these secured bonds were met directly by the GGL.

The premium on issue has been added to the value of the secured bonds and are amortised through the statement of comprehensive income over the life of the secured bonds.

14 ULTIMATE PARENT COMPANY

At 31 December 2018 the company's immediate and ultimate parent company was the Prudential Trustee Company Limited, a company incorporated in England and Wales. The share capital of the company is held by the Prudential Trustee Company Limited on a fiduciary basis on behalf of qualifying charities as defined in the Declaration of Trust and hence no group financial statements are prepared.

NOTES TO THE FINANCIAL STATEMENTS (continued)
Year ended 31 December 2018

On 11 May 2018 the directors of Sunderland (SHG) Finance Holdings Limited simplified the group structure by transferring its investment in the issuer to the Prudential Trustee Company Limited and then dissolving the holding company.

15 FAIR VALUES OF FINANCIAL INSTRUMENTS

The Level 2 fair value of the 6.38% secured bonds due 2042 and associated loan, as at 31 December 2018 are shown below. The fair value is derived from the market value of the reference gilts at that date. There is no difference between the fair value and carrying value of all other financial assets and liabilities.
